

# \$5000000 FIRE LOSS IN SOUTHERN AND EASTERN CITIES FIND SUPERINTENDENT GUILTY

## Fire Destroys 3 Large City Blocks At Athens, Georgia

**WATER SUPPLY EXHAUSTED AS FIRE SPREADS — HEAVY LOSS AT NEW HAVEN, CONN., WHEN DEPARTMENT STORE BURNS**

ATHENS, GA., Jan. 25.—A large part of Athens downtown district was a mass of smoldering ruins today and it was estimated that the fire which early this morning swept clean three entire city blocks and damaged adjoining buildings had destroyed property valued at at least \$4,000,000. No loss of life was reported.

The fire, of undetermined origin, broke out shortly before midnight and it was five hours later before the combined efforts of firemen from this and nearby cities succeeded in getting it under control. At its height the fire appeared as if it would wipe out the entire downtown section and it was then that calls for outside assistance were sent.

**Blast Starts Fire**

Rapid spread of the blaze was said to have been due to the explosion of gasoline drums in the Max Joseph building on Wall street, the lower floor of which was occupied by the Denny Motor Company. This scattered the flames beyond control and the fire spread down the east side of Wall street, south to Broad, virtually destroying every building in its path.

The flames then leaped across to the west side of Wall street to the building occupied by Michael Brothers, wholesale and retail dry goods merchants. This structure, covering nearly a block, was destroyed. From there the fire spread to Jackson and Clayton streets, sweeping everything in its way, to College avenue.

**Water Supply Low**

Adding to the confusion and difficulties was a weakened water pressure at the fire plugs but this soon was overcome when extra facilities at the reservoirs were brought into use. Finally, after more than five hours of battling, the firemen managed to check the flames and hold them to the buildings already practically destroyed. It was daylight, however, before the conflagration was safely under control.

**Second Big Fire**

NEW HAVEN, CONN., Jan. 25.—Fire, which destroyed the building of Mendel and Freedman, a department store in Chapel street, and spread to several adjoining structures early today, did damage estimated at \$1,000,000. The fire was brought under control after three hours hard work by firemen in zero temperature.

A five story warehouse occupied by the H. M. Bullard Company, furniture dealers, was also destroyed. Other firms in nearby buildings which suffered heavy losses from fire and water were: The Charles S. Mousen Company, dry goods and department store; Besseley company, clothing and haberdashery; C. S. Morseley Co., wholesale hardware dealers and Chatfield Paper Company, wholesale paper dealers.

The cause of the fire had not been established this forenoon.

## Athletic Field to Be Purchased For The City Schools

**BOARD OF EDUCATION VOTES TO SECURE EIGHTEEN ACRE TRACT ON OBERLIN ROAD—PRICE IS \$7,500—WILL BOOST SCHOOL ATHLETICS**

ELYRIA, Jan. 25.—If satisfactory arrangements can be made, and it is altogether likely that they will be, Elyria High School will soon have an ideal athletic field, second to none in the county.

At the board of education meeting yesterday afternoon it was decided to authorize President F. M. Stevens to purchase a tract of land embracing within a fraction of eight acres, located on Middle avenue, south of Maple street and the green line car barns. It is only a short distance from the green line car tracks making it easily accessible. The property belongs to Frank Squire who gave an option on it a short time ago. At first it was proposed to purchase ten acres of the land at a price of \$5,500, but when it was learned that the whole tract could be purchased for \$7,500 it was considered the wise thing to do.

The board of education had several persons look the property over, among them being C. W. Savage, athletic director at Oberlin. He pronounced it an ideal spot for an athletic field. It lies level, is well proportioned and the natural drainage is a great asset. Many members of the Alumni Association also expressed their approval. It was stated that the Alumni have about \$2,500 to be used in fitting out the grounds. They may be asked to help make the initial payment and the board will then reimburse them.

The purchase of the property is a move that has been contemplated for some time. The Alumni Association, several years ago started to raise money for the project, and it is quite likely will see to the upkeep. It is also quite likely that some time in the future a school building can be erected on the property as that section is growing.

## TOLEDO YEGGS ROB JEWELER, GT \$30,000

**Bind Proprietor and Customers and Make Good Their Escape**

TOLEDO, O., Jan. 25.—Jewelry valued at more than \$30,000 was obtained today when four bandits entered the Daniels Jewelry store and bound proprietors and customers hand and foot. The loot carried away by the outlaws in a speedy motor car included one tray of diamonds.

As fast as customers entered, the bandits struck them with revolver butts and placed them in a rear room, where they were bound. The management reported that the men took their time and were in the place half an hour, selecting their loot and forcing the proprietors at the point of pistols to unlock the store.

The police have but a meager description of the men.

Lawrence, Lorene Margaret Marsh, Gladys Edna McCullough, Ruth Elizabeth Meyers, Margaret Maybury Miller, Dorothy May Rankin, Clara Lucy Rarion, Mildred Elizabeth Richards, John Coventry Smith, Roy Silvanus Viney, Homer R. McCollum.

Musical will be furnished by the high school orchestra.

Promotions will also take place in the grade schools and a class of seventy five will enter the High school from the grammar grade.

**Baccalaureate Services**

The Baccalaureate Services at the First Congregational Church for the Mid-Year Class of the Elyria High School was beautiful for simplicity and directness. In the absence of the pastor, Rev. J. H. Grant, W. L. Burner, president of the Elyria Ministerial Association presided. The sermon was preached by Rev. Wm. Flammer of the Second Congregational church.

The message came as a personal appeal to the class to realize that the most important and valuable thing in the world is man, himself, his soul, not his possessions nor even his body. He used as text those very familiar words of Jesus as recorded by Mark in the eighth chapter and the thirty-sixth verse: "What shall it profit a man if he gain the whole world and lose his own soul?"

Man is soul, not body declared Mr. Flammer. This he enlarged by reference to Edward Everett Hale. When Mr. Hale was eighty years old and quite feeble he was asked of his health by a solicitous friend. The wise man replied: "I am quite well today, Sir. True the body in which I live is getting rather bad; it shows signs of deterioration and age and I am reminded that I will have to abandon it soon, but I am feeling quite well indeed, Sir, I thank you."

A cold, calculating, scientific age puts too much stress on material values and forgets the possibilities of the self, the person. The speaker read a clipping from a German paper written before the war which stated that an average man who weighs about 150 pounds is worth about \$7.50. He is composed of fats, phosphates, iron, albumen, about a tea spoon of salt. The fat is worth about \$2.50 and there is enough iron to make a nail about an inch long. No wonder Germany fed men to the cannons as fodder!

Jesus showed that man is worth more than all else and if he loses himself, his soul, he has lost all. Rev. Flammer appealed to the class to remember that they are valuable not only economically, but potentially and spiritually as well. For what shall it profit a man if he gain the whole world and lose his own life.

## F. A. STETSON ENDORSED FOR VACANCY BY COUNTY EXECUTIVE COMMITTEE

**STATE FIRE MARSHAL H. A. DYKEMAN'S PLACE ON THE BOARD OF ELECTIONS WAS SOUGHT BY SEVERAL OLD TIME REPUBLICANS — WOMEN ON COMMITTEE PRESENT RESOLUTION ASKING RECOGNITION IN APPOINTMENTS BY GOVERNOR DAVIS**

ELYRIA, Jan. 25.—The members of the Lorain County Republican Executive committee, called in special session last evening by chairman J. W. McHenry in the offices of the board of election, endorsed the application of Attorney F. A. Stetson of this city to succeed Henry A. Dykeman, who was recently appointed State Fire Marshal on the Lorain County Board of election.

There were three applicants for this office. F. A. Stetson, Ross Fawcett and George Stark, and the vote taken which gave the majority to Mr. Stetson, eliminates the other candidates, inasmuch as it is the one requirement to the Secretary of State is the county committee's endorsement.

Charles Murray, had also been urged by friends to go in for this place on the board, but later with drew, finding that it was almost imperative for the member to be a resident of Elyria and in close touch at all times with county political situations.

But few other matters of business were disposed of, except the passing of several resolutions as follows:

Thanking Governor Davis on his recognition of Lorain County in his appointment of H. A. Dykeman as state Fire Marshal and commending his discernment and judgement in the selection of the man for the place.

Also that in as much as the Republican Women of Lorain County had with full accord supported H. A. Dykeman for Governor of the State of Ohio, they were watching with keen interest and satisfaction the beginning of his administration and respectfully asked that in his appointments he would recognize the women candidates, capabilities proving equal.

The application of C. T. Routh, of Mansfield, for internal revenue collector from this district, was endorsed by the committee.

The women, members of the board, Mrs. Christy of Oberlin, Mrs. Curtice of Wellington, Mrs. Corburn of Amherst and Mrs. Clark of Elyria presented the request of the women of the county for funds to rent a hall for a big county meeting, and this was unanimously voted.

## AUDITOR SAYS SCHWAB GOT NO PAY

NEW YORK, Jan. 25.—Positive denial that any part of the \$260,000 voucher, made out for expenses of Charles M. Schwab for the month of October 1918, was ever charged to ship construction was made today by S. A. Schick, general auditor of the Bethlehem Steel Corporation, in testimony before the Walsh congressional committee investigating affairs of the shipping board.

NEW YORK, Jan. 25.—Mr. Schick said he had personal knowledge that the voucher was charged to profit and loss of the Bethlehem Corporation and that it was never picked up by the Emergency fleet corporation as a proper charge because it carried no supporting details. His testimony contradicted that given last week by Colonel E. H. Abadie, former comptroller general of the shipping board to the effect that the item was submitted as Mr. Schwab's personal expenses.

## TWO RESIGNATIONS WERE DEMANDED BY SCHOOL OFFICIALS

**LA GRANGE SCHOOL BOARD DISMISSES SUPERINTENDENT AND TWENTY-YEAR-OLD TEACHER, WITH WHOM IT IS ALLEGED HE WAS TOO FAMILIAR**

ELYRIA, Jan. 25.—The quiet village of La Grange is all agog with excitement following the action taken by the school board Saturday, when Superintendent O. T. Jacobs of the LaGrange Schools, was found guilty of having maintained improper relations with Miss Helen M. Hutton, 20-year-old instructor of Jeanette, Pa., who was in charge of the sixth grade.

Jacobs, who is 44, is a married man and the father of four children and Miss Hutton, were requested to tender their resignations and were immediately dismissed from service.

He is a former resident of Wellington and for the past six years had been acting in the capacity of district superintendent for the southern district and had also been an unsuccessful candidate for the office of county superintendent.

**Shifts Teacher**

A year ago Jacobs was employed as superintendent of the LaGrange schools and when he took charge of the schools in that village, he immediately installed Miss Hutton as teacher in the sixth grade, she having given up her school in Pittsfield to come to Grafton.

A Miss McKean of Berea had been hired to take charge of the sixth grade, but Jacobs, who had become acquainted with Miss Hutton in Pittsfield, insisted that she fill the position, whereupon Miss McKean accepted a position in the Russia township schools.

Miss McKean claimed that the reason she was not retained to teach the sixth grade, was because she had discovered the relations which were alleged to have existed between Jacobs and Miss Hutton and in due time the school board was informed of what was going on after school hours and at other times.

When Miss Hutton decided to attend state normal school at Kent Jacobs is alleged to have accompanied her to the hall of learning and arranged for her stay during the course she was to pursue.

**Abuse Starts Gossip**

When both superintendent and the grade teacher were discovered missing from the village on such occasions, the residents of LaGrange discussed the rumors, which had gained circulation and to add to the talk which was going the rounds, a package of letters which had been received by Miss Hutton from Jacobs, fell into the hands of the school board and it was then decided that it was high time to take some action and a meeting of the board was called.

## PROTEST EARLY SCHOOL HOURS

ELYRIA, Jan. 25.—A communication was received by the Board of Education yesterday requesting that in Miss Mantel's room at the Garford building, school be begun at 9 o'clock instead of at 8:30 as at present. The children are first graders and the mothers stated that they had to start them off to school too early, and they believed that the children needed the extra rest.

The board decided to postpone action for the present, as it would affect other schools and the plan had been tried once during the war and had proved unsatisfactory.

## May Change Number of Senatorial District, But Not the Territory

Lorain, Medina, Ashland and Richland counties comprise the present district and will be unaffected by the proposed legislation in case it is acted upon favorably by the legislature.

## Rival Candidates Urging Friends To Vote For Third Man on Ballot

ELYRIA, Jan. 25.—James Smith, A. B. Taylor and Dr. C. H. Cushing have been announced as candidates for the presidency of the Chamber of Commerce, but as far as Mr. Taylor and Cushing are concerned they are supporting Smith and urging their friends to make his election unanimous.

The affairs of the Lorain County Bank & Trust company require Taylor's undivided attention, he says, and he realizes that the president of the Chamber of Commerce should be in a position to devote several hours a day in the interests of such an organization.

Cushing says he cannot look after the sick of this city and the welfare of the Chamber of Commerce at the same time and for that reason he would be unable to give it the attention such as is required to make it a successful organization.

As neither Taylor nor Cushing can see their way to accept the honor in case they were elected to that office, it looks as though a man named Smith would be the next president of the Chamber of Commerce of this city and it is generally conceded that he is qualified to fill the position.

Mrs. M. D. Gillespie, a well-known beauty specialist of Kansas City, recently gave out the following statement regarding gray hair.

These ingredients can be purchased at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."—Adv.

Makes a Family Syrup of Cough Remedy

Really better than ready-made cough syrups, and cures about 82. Ready and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break severe coughs.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. Jan. 25, 1916.

EVANGELIST MUNRO ATTRACTS BIG CROWD AT RESCUE MISSION

LORAIN, Jan. 25.—The Rev. Dr. Donald Duncan Munro, for ten years pastor of Calvary Baptist church in Kansas City, delivered a very interesting and uplifting address at the Rescue Mission, last evening. The subject of the splendid discourse was "The Headship of the Church—Christ." He pointed out the fact that no one is a member of the real church unless he knows Jesus as his Lord and Master, though he may be a member of any evangelical church. Education does not save a man the spiritual faculty is what we need. Spiritual perception and not the educational is emphasized in the Bible. All things are possible through the living word of the living God. Philosophy dodges sin, but God, through the Bible, faces and solves the problem.

He showed how Christ was the head of creation; therefore the cause, the beginner, the sustainer, and the consummator of it. The Darwinian features of creation are so mouldy that they cannot be used any longer. He believes, as does Lord Kelvin, that the Bible is the only up-to-date, authentic, inerrant, logical book of science in the world today. He pointed out that the five requirements of creation, as set forth by Spencer, namely: Time, space, matter, power, movement and action were fulfilled in the two very last verses of the Bible.

He clearly explained the full meaning of the word redemption, quoting from the Bible that it pertains to past, present and future. He explained the original meaning of the three words used together to explain the meaning, showing that it applied: First: As a slave bought in the market. Second: As a slave taken out of the market, but with a new master. Third: Set free when Christ bought His children with His precious blood, he took them out of the market so they were no longer slaves to Satan, but were citizens of the New Jerusalem.

A quarter from the Elyria First Baptist church furnished the music.

Dr. Munro will teach in the First Baptist church, in Elyria, tonight, Wednesday, Thursday and Friday nights.

No meeting will be held tonight at the Rescue Mission as the attendants at the Mission will go in a body to Elyria, leaving either on the green line or the yellow line at 7:40 and 7 o'clock.

WICKENS COMPANY 1/2 OFF SALE

The Creed of the True Leader

To the true leader, nothing matters so vitally as that he shall give to his supporters the very best that is in him.

His code permits no compromise with quality. He recognizes that to please is more important than profit.

He asks no applause for his attitude.

It is a debt, a duty, and a point of honor.

Pride in his leadership, as well as a sense of responsibility, demands that he serve his public to the utmost ability.

Wickens's Company—recognized pioneer leader of Lorain county's home furnishers have for 39 years held fast to this ideal of service.

We have endeavored to express the ideal in this store's every relation with the public.

The constant thought of this store is to serve you and every customer to the very best of our ability.

It is this ideal of service which inspired Wickens Company's 1-2 Off Sale, now enjoying the praise and patronage of hundreds of customers daily.

It would be insincere to pretend we are not proud of this sale.

The merchandise offered is of such fine and familiar quality that merely to glance at the trade names is to be assured of satisfaction.

The 1-2 off prices now being offered are lower even than one could reasonably expect—much lower some authorities say, than the price standards of the near future.

With all due modesty, we believe that the public's enthusiastic and continued approval is natural and merited.

The event is the crowning expression of this store's 39-year ideal of service. The Wickens Company in this 1-2 off sale, are true to the leader's creed—are indeed giving to the public the very best that is in us.

## READJUSTMENT AND TARIFF

Readjustment as a factor in tariff's schedule was brought up last week before the ways and means committee of the House of Representatives. It was asserted by several manufacturers that the constantly changing rate of foreign exchange, together with the fact that foreign labor costs are not yet stabilized, made it impossible to fix protective tariff rates intelligently present. "Rates that may be good now will serve no purpose later," was their opinion. This was endorsed by Representative Gardner, a democrat, but Representative Fordney, Republican, declared that these difficulties would be overcome.

The principle advanced by these manufacturers is undoubtedly sound, yet it does not stand in the way of a tariff law. Readjustment not yet completed, either in our own country or in any foreign country. It has gone far enough, however, to indicate the general trends. We are absolutely safe in assuming that foreign exchange rates will gradually and steadily improve. We are fairly safe in assuming that protection costs, both here and abroad, will gradually go back to a level moderately higher than pre-war figures.

When exchange rates have improved considerably, our protective tariff rates may safely be lowered. Present differences in the value of American and foreign money make it very profitable for the manufacturers of other countries to ship their products here. They are paid for their goods in American money, which is worth much more than their own. They then exchange the American money for currency of their own lands, with which they pay their production costs. In addition to his normal profit every foreigner shipping goods to the United States now has an exchange profit which in some cases is extremely high. He can therefore afford to pay high tariff rates as long as these exchange rates continue. As our imports increase our huge balance against foreign nations will decrease, exchange rates will gradually become normal, profits of foreign shippers will be less and they will be unable to pay high tariff rates.

As to production costs, it may be assumed that reductions all over the world will be proportionate. Germany, in all probability, will be a notable exception to this rule. In her efforts to gain trade Germany will no doubt aim to keep her costs lower than those of any other country. This is not a matter for alarm at present, as it is in the interest of the world to let Germany recover financially and commercially. We can pass a protective measure to meet conditions as they are, or rather as they will be in a few months hence, when the measure is finally amended. Then, when conditions demand it, the tariff can be revised.

Modern politicians are too polite to call their opponents liars. They merely charge them with being malicious malevolent prevaricators.

The Bible tells about beating swords into plowshares, but the American people seem more inclined to beat them into jazz instruments.

## X-RAYS

There's one thing  
 That is sadly lacking  
 In this great city.  
 What is it?  
 A city hall.  
 We sometimes wonder  
 Why it is.  
 That our best minds  
 Do not seek the honors  
 Of a political life.  
 It's no wonder,  
 That more of 'em don't.  
 Our present city offices  
 Are a disgrace to the city,  
 And an eyesore  
 To the occupants.  
 Maybe we are contemplating  
 A new city building,  
 If we are—  
 Well and good,  
 Let's get busy.  
 An Elyria woman  
 Entered a store  
 Where men's clothing are sold  
 And requested a salesman  
 To measure her son,  
 A young man  
 Of about 20 years.  
 The obliging salesman  
 Complied with the request,  
 With visions  
 Of a suit sale  
 Before his eyes.  
 After the measurements  
 Had been carefully taken  
 The woman asked for them,  
 Carefully folded the paper  
 On which they were written  
 And placed it in her hand-bag.  
 "I want to send to Chicago  
 For a suit," she said,  
 And I was afraid  
 That it might not fit.  
 Unless I sent measurements.  
 The salesman  
 Fainted dead away.  
 Talk about "PEP"  
 It's spelled this way,  
 K I W A N I S.  
 I Thank you.

E. E. Critz sold his jewelry store to Oscar Hasebrodt and expected to move to Cleveland to engage in the wholesale jewelry business.

A movement was on foot to have the post office closed all day on Sunday so that the carriers could have the day to themselves. Many signed petitions in favor of the plan.

## Thirty Years Ago

ELYRIA, Jan. 25.—E. L. Sanford made a valuable contribution to the Lorain County Historical Society of South America curios.

Dennis Seward, of the Elyria post office lost his title as Y. M. C. A. tennis champion. He was advertising for the person who found it to please bring it back.

J. C. Crisp of the firm of Boynton & Crisp, meat dealers, was badly shaken up when his horse ran away and threw him out.

Timothy Cummins, West River street, was instantly killed by a switch engine on the B. & O. tracks. He was at work helping clear up a small wreck when the engine backed down on him.

## VENTURES IN COMMON SENSE

How are your personal habits? I once knew a man who married a woman on short acquaintance, and she left him in a week; she said his personal habits were so bad that she would rather die than live with him. Another man I knew became engaged to a girl, and after a very moderate association with him for only a few weeks she said she could not stand his foolish talk and actions, and broke the engagement. Look yourself over.

Feel ashamed of all your misdeeds; not only of those the people have caught you at.

You lack of ordinary sense if you believe roguery pays. There is not one man in a thousand capable of being a successful rogue, while any one may succeed as an honest man. A successful rogue must have usual cunning; unusual nerve. The man capable of being a successful rogue could succeed a thousand times easier as a worker and honest man. The average man's capacity is for straight endeavor; the world is organized on that plan. Every man's hand is against a rogue; every man is willing to reward a neighbor who is safe, reliable and useful.

At times his face itched so we had to stick them in cold water and he couldn't sleep. I read an advertisement for Cuticura Soap and Ointment and sent for a sample. DELEGATES FROM FOUR CORNERS OF U. S. WILL HELP DECIDE WHETHER WOMEN SHALL HAVE SEPARATE PARTY

Left to right: Mrs. Genevieve Allen of California, Mrs. Mary A. Nolan of Florida, Mrs. Robert Treat Whitehouse of Maine and, at the left below, Mrs. Sophie Clark of Washington.

Now, with the vote in their hands, they face the question of what to do with it; whether to disband and enter the existing parties or to continue their woman's party as a separate political group. This question will be settled in their convention in February.

The four corners of the country, Maine, Florida, Washington and California, are represented in the pictures. Mrs. Robert Treat Whitehouse, of Portland, Me., state chairman for the party, will head the delegation from her state; Mrs. Mary A. Nolan, of Jacksonville, Fla., will have a

place of honor in the convention proceedings as the oldest suffrage "veteran" in spite of her eighty years she went to jail for the crime of holding a suffrage banner in front of the White House; Mrs. Sophie Clark of Washington, after fighting for suffrage, fought for women's measures in her state as chairman of the Women's Legislative Council, and will, as chairman of the Woman's Party, lead her state delegation to the convention; Mrs. Genevieve Allen, of San Francisco, is state chairman for California for the Woman's Party.

Delegates from the four corners of the United States, as well as from the center and the top and bottom of the country, will meet in Washington next month to decide whether or not the women shall have a separate party. These delegates are members of the National Women's Party who learned during the strenuous days of suffrage fighting all there is to know about the art of politics.

Farming The Shell-Craters

Contrary to expectations, the shell craters of France will soon blossom like the rose.

For years the Germans dug deep into the garden spots of France, tearing up their rich farms and vineyards with their cruel shells, filling the ground with shrapnel and digging great shell craters into the richly cultivated lands.

People said it would be years and years before this devastated country could be farmed again. Until the sub-soil could become seasoned by exposure to light and air and thoroughly fertilized. But these prophets of calamity were wrong.

Already in some places the very wounds of France have brought forth abundance. An American agricultural expert who is experimenting in the devastated region finds that the shell torn land is productive and that even the shell craters may be cultivated.

The rich top soil, the expert explains, had to fall somewhere, and though it is redistributed it has fallen back onto the land. The chalky sub-soil has been found to be rich in lime and other useful agents and, what is more, the very shells of the enemy brought with them thousands of dollars' worth of the finest potash which, as we all know, is a valuable fertilizer. So with very little work, the sur-

face debris was removed, the land leveled off and the crops planted. And then the miracle happened. To the great surprise of the French themselves, the seeds grew, and gaping shell holes were made green again.

Human beings, too, have their shell craters of the soul—those great rents and holes which have been torn in the heart by hurts and disappointments, and gouged with ugly furrows by the shell and shrapnel of adversity.

Most of us are tempted to look at these deep furrows, and see in them only the promise of hardened, ugly scars. But such shell craters, like those of France, can be made to blossom with flowers of character and understanding, such as would never have grown there if the deep sub-soil had not been stirred and the latent qualities within us discovered.

Without them shall lives most of us are content to live surface lives fed only by the superficial surface soil. But an unspiced garden may discover rich possibilities in the very shell craters which the bitterest hurts tear in their hearts, and may learn to grow there, something more beautiful than mere jagged, hardened, scar tissue.

A lady whose nerves seemed to have gone to smash and the last of her apparently burned out of the blood, how it feels to come back. Ask the host of men and women who have used Reolo. Here is one of the most astonishing reconstructive influences ever devised. It is a marvel for the many ways it seems to act. And it acts almost at once. Safe, harmless, of food value, also the quality of actual intelligence it has the power to invigorate the entire organism. It purges the blood, restores it, increases red corpuscles enormously, takes the pallor out of the cheeks, contributes to the defense of the body against exhaustion, and intensifies the activity of the vital processes to such an extent that you not only look like a winner, you feel it from head to foot. Ask any clerk at J. A. E. Drug Store and any other leading drug store what a host of men and women have gained from this most wonderful reconstructive strengthener.

DELEGATES FROM FOUR CORNERS OF U. S. WILL HELP  
DECIDE WHETHER WOMEN SHALL HAVE SEPARATE PARTY

Left to right: Mrs. Genevieve Allen of California, Mrs. Mary A. Nolan of Florida, Mrs. Robert Treat Whitehouse of Maine and, at the left below, Mrs. Sophie Clark of Washington.

Delegates from the four corners of the United States, as well as from the center and the top and bottom of the country, will meet in Washington next month to decide whether or not the women shall have a separate party. These delegates are members of the National Women's Party who learned during the strenuous days of suffrage fighting all there is to know about the art of politics.

Now, with the vote in their hands, they face the question of what to do with it, whether to disband and enter the existing parties or to continue their woman's party as a separate political group. This question will be settled in their convention in February.

The four corners of the country, Maine, Florida, Washington and California, are represented in the pictures. Mrs. Robert Treat Whitehouse, of Portland, Me., state chairman for the party, will head the delegation from her state; Mrs. Mary A. Nolan, of Jacksonville, Fla., will have a

place of honor in the convention proceedings as the oldest suffrage fighter—in spite of her eighty years she went to jail for the crime of holding a suffrage banner in front of the White House; Mrs. Sophie Clark of Washington, after fighting for suffrage, fought for women's measures in her state as chairman of the Women's Legislative Council, and will, as chairman of the Woman's Party, lead her state delegation to the convention; Mrs. Genevieve Allen, of San Francisco, is state chairman for California for the Woman's Party.

Farming The Shell-Craters

Contrary to expectations, the shell craters of France will soon blossom like the rose.

For years the Germans dug deep into the garden spots of France, tearing up their rich farms and vineyards with their cruel shells, piling the ground with shrapnel and digging great shell craters into the richly cultivated lands.

People said it would be years and years before this devastated country could be farmed again, until the sub-soil could become seasoned by exposure to light and air and thoroughly fertilized. But these prophets of calamity were wrong.

Already in some places the very wounds of France have brought forth abundance. An American agricultural expert who is experimenting in the devastated region finds that the shell torn land is productive and that even the shell craters may be cultivated.

The rich top soil, this expert explains, had to fall somewhere, and though it is redistributed it has fallen back onto the land. The chalky sub-soil has been found to be rich in lime and other useful agents and, what is more, the very shells of the enemy brought with them thousands of dollars' worth of the finest potash which, as we all know, is a valuable fertilizer. So with very little work, the surface debris was removed, the land leveled off and the crops planted.

And then the miracle happened. To the great surprise of the French themselves, the seeds grew, and gaping shell holes were made green again.

Human beings, too, have their shell craters of the soul—those great rents and holes which have been torn in the heart by hurts and disappointments, and gouged with ugly furrows by the shell and shrapnel of adversity.

Most of us are tempted to look at these deep furrows, and see in them only the promise of hardened, ugly scars. But such shell craters, like those of France, can be made to blossom with flowers of character and understanding, such as would never have grown there if the deep sub-soil had not been stirred and the latent qualities within us discovered.

Without them shall holes most of us are content to live surface lives fed only by the superficial surface soil. But an inspired gardener may discover rich possibilities in the very shell craters which the bitterest hurts tear in their hearts, and may learn to grow there, something more beautiful than mere jagged, hardened, scar tissue.

Commences Three-Day Run at Strand Theater Today

LUCY COTTON  
STAR OF  
GERALD F. BACON'S "BLIND LOVE"

Jan. 24.—The Strand theatre three days beginning today, is founded on a story "The Subtle Lover," and is without the most dramatic picture plays that has had the honor to public approval. Miss Cotton is a dainty Lucy Cotton in an enviable reputation on both stage and screen. She is a number of speaking parts that enjoyed long runs and were presented in tours on the road. "Blind Love" this charming play has one of her finest roles.

Supporting the star in the leading male role is George LeGuere, who has become a great favorite among followers of the silent drama because of his excellent playing in a large number of features. Then there is Frank O'Connor, polished actor and a player who always manages to make his roles stand out strongly. In "Blind Love" Mr. O'Connor has been exceptionally well cast and does full justice to a big role. Other supporting players include Thelma Bergen, Morgan Coman, Charles Butler and Edouarde Durand.

One of the high lights of the photodrama occurs when a young heiress discovers that the man she loved and married had apparently been after her money, loving that and not the girl that owned it. This tensely dramatic scene is superbly played by Miss Cotton and the Messrs. LeGuere and O'Connor. It is one of the most dramatic scenes ever filmed and will never be forgotten by those who see it.

The management of the Strand is particularly glad to be able to offer "Blind Love" for the entertainment of their many patrons for they believe it to be a photodrama that will please everyone who sees it.

The engagement of "Blind Love" at the Strand theatre is a limited one, so it would be advisable to go to the theatre early to be sure of seeing this motion picture masterpiece.

**'Honest Hutch' At Opera House Two Days**

LORAIN, Jan. 25—"It's all right to tumble into the river once on a trip, but three times in one day is too much," said Will Rogers, when he returned to the Gridwin Studios after being "out on location" during the filming of "Honest Hutch," which comes to the Lorain Opera House for two days Monday and Tuesday.

The first time the star got an accident when he was entirely lost on a fault line was on the back of a tug on the Sacramento river, the river scenes for the picture were made, and overreached himself in taking a swing with his rope. He went in with a splash to the enjoyment of all.

**Show Safety First Pictures On Feb. First**

LORAIN, Jan. 25—Under the direction of the Baltimore and Ohio Railroad Co., three reels of exciting, thrilling, gripping motion pictures taken on and around a modern railroad system among live railroad men will be shown to the public in the Lorain Chamber of Commerce rooms on Tuesday night, February 1. The entertainment is given under the auspices of the safety department of the B. & O. A program of music will be given here in connection with the pictures and community singing tickets for free admission will be distributed by the superintendents at the master mechanics and other offices of the company.

A special train will be run from Dover, which will leave here at 11:45, after the entertainment, giving all the railroad employees and their friends of that community an opportunity to attend the affair and return to their home that night.

**'Crooked Streets' Coming To Temple**

LORAIN, Jan. 25—Shanghai! The word has a double significance in Ethel Clayton's new picture, "Crooked Streets," in which she will be seen at the Temple theatre Lorain. For not only is the story laid in Shanghai, often called the "Paris of the East," but Miss Clayton, as the pretty American secretary to a collector of antiques is actually shanghaied by a treacherous "rickshaw" man at the behest of an evil-hearted mandarin and carried toward a dive in the native section of the city. However, help arrives in time, though the adventure which follows is even more exciting than the attempted kidnapping.

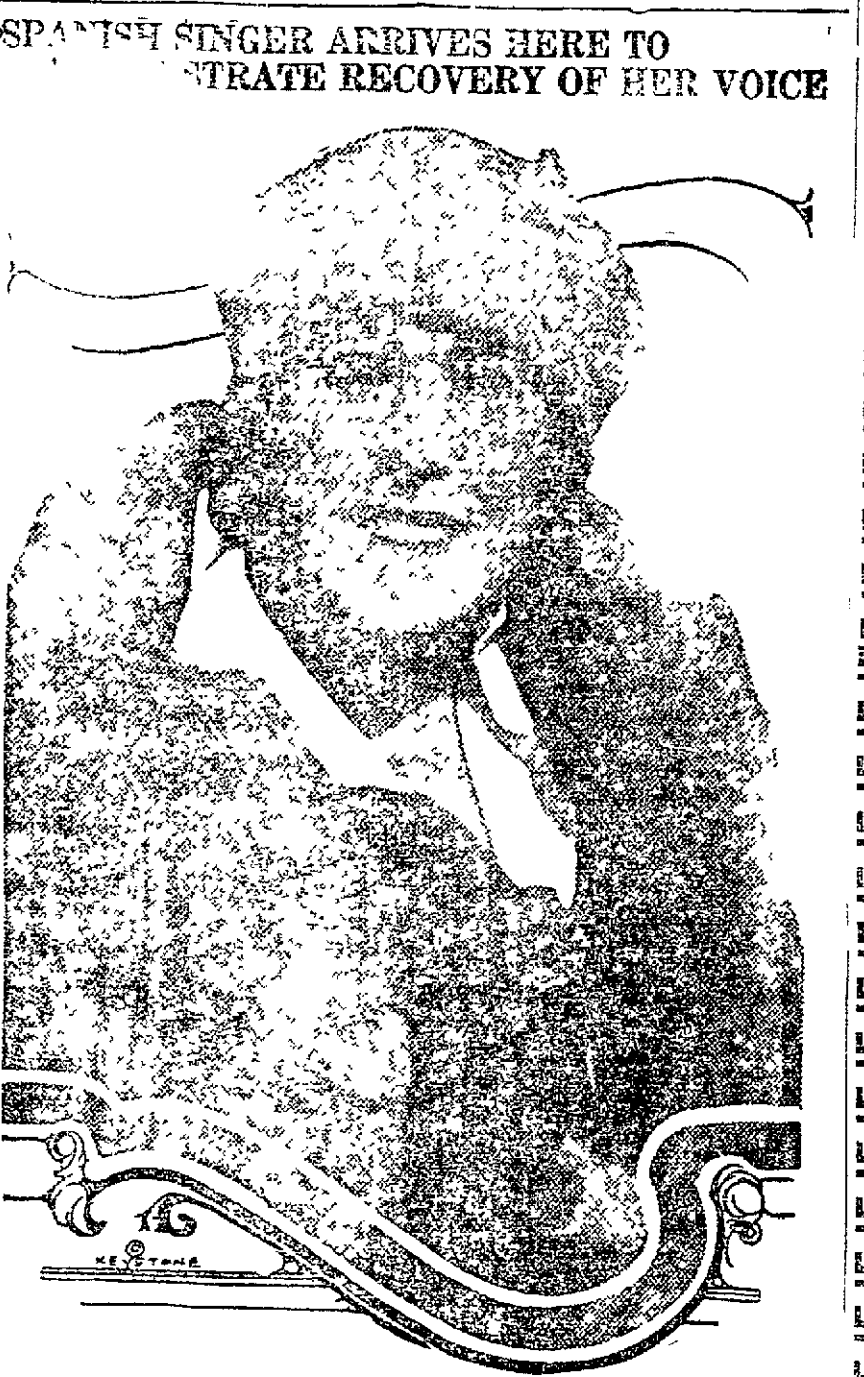

**The New York Idea, Is Coming To Pantheon**

LORAIN, Jan. 25—"Taking the Cure at Reno" was the title of a not at all facetious satiric which appeared in a recent issue of a popular woman's magazine, and in it the writer, a woman lawyer, discusses the great American habit of jumping in and out of marriage. One of the interesting facts she brought to light is that forty per cent of last year's Reno divorces were by "brides." No "repeating at leisure" for those enterprising young ladies, who, from patriotic motives or the emotional stress of poignant farewells, hastily leaped into wedlock. No indeed—not with Reno as near as it is to all points east, west, north and south in these United States. Is it any wonder that Reno is America's most popular resort?

## FROM COLLECTION OF WARRING STATES IN 1815, ITALY HAS BECOME A LEADING NATION

Map of Italy in 1815, when it consisted of a loose aggregation of states, some independent, but most of them under the control of Austria. At that time Italy, to quote Metterach, was "only a geographical expression."

The growth of Italy from a mere congeries of warring states to the united kingdom which is now one of the great powers of Europe has been accomplished in little more than a century, and is full of interest and romance. After the downfall of the regime of the first Napoleon there were seven principal states in Italy, nominally independent, and two regions under the foreign rule.

els tomatoes and she tell me Annie Pochurk help her put the paper in the house. I say why don't you tend your own tomatoes. You get my supper. I no can eat supper, just two spoons. I was mad. I take my coat and go out to see Annie Pochurk how many tomatoes was around there. Annie has gone to neighbors house and they fixed up a lie to tell me of tomatoes I see about a bushel and a half. Annie Pochurk tell me she is around there for just a little while. Now Mike you are getting a good way off the story, make it short as you can.

Annie Pochurk tell me like that, Mike you can never live with your wife no more, she is no good. Now Mike is there anything else you want to tell?

My wife tells me she never stay with me she go away.

Write Threatening Letters  
Mike did you threaten to kill your wife in any of your letters?

Yes.

Letter dated January 1, 1921.

In this letter Mike says he asked her what become of the \$500 that he got from his property in the old country and the wages for 24 years, that he buy his property with, if she don't get that for him and come on the hunt of me I will kill her, if I must loose my property and my children, I am sorry. I never could stand it. I am sorry for my children, she chased me away.

Is there anything else you want to say Mike?

I live here 24 years, I was alright. She chased around with other men and she chased me away from my property and my children. And that is the reason why you killed her?

Yes, I wanted to catch him and

kill myself too as soon as I got him.

Now Mike is that all?

Yes.

Witness: Theodore Walker  
George Jennings  
Signed, Mike Kost (Korah)

## Two Resignations

It also developed at this conference that the janitor of the school building had been pressed into service as a messenger boy to carry messages back and forth from the superintendent to the twenty year old instructor.

One of these letters is alleged to have taken Miss Hutton to task for failing to meet him in Columbus when a school meeting was on the program and Jacobs was evidently quite peeved because she did not put in an appearance at Columbus, after he had arranged for her accommodations at the capital.

## Admitted Power

It is further alleged that he informed her point blank, to the effect that the LaGrange school board would grant any favor he might ask and that it was in his power to discharge her the same as he had Miss McKean.

Another meeting of the board

The vacancies will be filled at an early date and meantime the residents of LaGrange will continue to discuss and ponder over the way of a man with a maid.

## Village Chagrined

According to County Superintendent S. C. Seale, the LaGrange school board is very much chagrined as a result of the disclosures which have been brought about, but is making the best of a deplorable situation and will take steps to guard against any such proceedings in the future.

Words are inadequate to do full justice in our effort to express proper appreciation to all for their liberal patronage and attendance on the opening day.

A Word About Our JANUARY CLEARANCE  
Read This—Its Worth While

It is an established rule of this store never to carry over to another season any shoes that might become "back-numbers" six months later. We never buy job lots for a special sale and we always offer styles that are vogue at the time of the sale. That is to say, the shoes that we are offering in our JANUARY CLEARANCE are in very good style right now.

We have grouped together about twenty different styles in one assortment which we are offering in our JANUARY CLEARANCE at one price, \$9.85. Some of these shoes sold at twelve fifty and thirteen dollars, some at fourteen and three styles formerly sold at sixteen dollars. At \$9.85 they are a rare bargain, you will find on close inspection that we are giving the public an unusual proposition.

## TELLS POLICE FULL STORY

Little girl say she would wash the dishes and if she didn't her mother would lick her. I waited about 10 o'clock and she comes home and she see somebody in the house and she call little girl Helen outside on the porch and the little girl go out and she says who is in the house, and I go out and says I am here. Another woman, Mrs. Frank Janosk came home with my shoe. Then what, Mike. I want to shake hands with my wife and she did not want to do it and after that I talk and I call her into the house and I take the gun and shoot her two times.

Who saw you shoot your wife? Just the children.

Then what did you do? I shoot her and she run out on the sidewalk and I ran back through the alley.

Re-filled Revolver  
What did you do when you got to the alley?

I take the bullets out and put another in.
